Sayas Numerics Seminar

Speaker: Dongbin Xiu, Ohio State University
Title: Data Driven Governing Equations Recovery With Deep Neural Networks

For a list of talks, registration page and more information see:

https://sayasseminar.math.umd.edu

Hallenbeck Graduate Student Seminar

Speaker: Melinda Kleczynski
Title: Topological Data Analysis of Biological Aggregation Models

https://udel.zoom.us/j/93317448538

Inverse Problems and Analysis Seminar

Speaker: Fioralba Cakoni, Rutgers University
Title: Transmission Eigenvalues for a Scattering Problem In Hyperbolic Geometry

Teaching Seminar

Speaker: Michael Shoushani, Western Connecticut State University
Title: Navigating the abrupt shift from an in-person to an online course

https://udel.zoom.us/j/99027382508
Friday, September 25, 2020  4:00 p.m.

*Discrete Mathematics Seminar*

Speaker:  Michael Tait, Villanova University

Title:  TBA
